The Thunder Bay Regional Health Research Institute (TBRHRI) - an independent, not-for-profit corporation - is the research arm of the Thunder Bay Regional Health Sciences Centre. Our Scientists work closely with physicians and other clinicians, as well as academic and industry partners, to enhance research to improve the health outcomes of the people of Northwestern Ontario and beyond. Research is advanced through discovery and development of new imaging and other technologies, clinical trials and understanding of Indigenous Health and other pertinent matters.

We are currently seeking candidates for the following position:

**RESEARCH ASSISTANT** – Part-time, 1 year contract

The individual will work to support the research of Dr. Brianne Wood, Associate Scientist in Social Accountability and Learning Health Systems at Thunder Bay Regional Health Research Institute. The incumbent will support primary health care research and health systems evaluation research in Northern Ontario. In particular, the Research Assistant will lead the execution of a knowledge synthesis (e.g., scoping review) related to health professional education and learning health systems. They will also support the development of a survey to assess the feasibility and acceptability of a health impact framework for Northern Ontario.

The ideal candidate is highly motivated and organized, with the ability to multi task in a fast-paced, diverse and growing environment. Exceptional organizational and communication skills, along with strong quantitative, analytic and reasoning skills are necessary. A strong work ethic and positive attitude are key. A Master's degree in health services research, epidemiology, clinical science, or related or equivalent combination of education and experience, is required. Three to five years of relevant experience, particularly participating in health research or clinical services in a northern, rural, or remote context is preferred.

To be considered for this position, please send your resume with a cover letter to:
